## **CONCLUSION**

College magazines are useful in many ways. They have a great educative value. They encourage students to think and write, so they develop their writing skills and creative talent. These magazines are a means of bringing the ex-students and the entire member in colleges. Students are taught to read books and to acquire knowledge from the works of great authors. But mere reading of books is not sufficient for education. So the students are also taught how to write and express their own ideas in a good form and in different languages. With this aim our college magazines are published. They contain a collection of articles, poems, stories and plays. They are written mainly by the students and sometimes by teachers and past pupils. In fact young talent finds its first exposure through this medium. Magazines are generally published annually.
